

# TGP Micros

## MICRONUTRIENTS

**TGP Micros** is a foliar micro nutrient product that supplies turf with nutrients typically not available in high pH soils. Each nutrient in TGP Micros is treated with a dual complexing process involving citric and amino acids for maximum uptake and compatibility.

**SUPERIOR COLOR | AIDS METABOLIC REACTIONS | COMPREHENSIVE MINORS**

### GUARANTEED NUTRITIONAL ANALYSIS

Iron (Fe) .....	3.5%
Magnesium (Mg) .....	1.5%
Manganese (Mn) .....	0.75%
Zinc (Zn) .....	0.75%
Boron (B) .....	0.1%

**Derived from:** Magnesium sulfate, ferrous sulfate, manganese sulfate, zinc sulphate, boric acid complexed with citric acid.

### Dual Micronutrient Complexing Technology

**Application Rate:** 2-6 fl. oz. / 1,000 sq. ft. • 10.3 lbs. / gal. • 2 x 2.5 gal.  
Ornamentals: 2 qts/50 gal. water
